

Healthy Families visits prenatal mothers and families of newborns to ensure they have what they need for a successful start with their babies. Healthy Families provides a range of support services to families such as child development and parenting information and referrals to health and community services through home visits, group activities, and phone calls. Services are voluntary and confidential and you have the right to end participation at any time. If you live in our service area, a Healthy Families staff member may call or stop by to see you.
