She stated the Request for Information (RFI) was issued on March 23, 2022 and that 33 responses were received. The Board had previously determined an overall allocation of

the \$5.1 million ARPA funds for Request for Proposals (RFP) and Intergovernmental Agreements on May 10, 2022. Staff developed and issued the RFP on July 28, 2022, conducted a Pre-Proposal Conference August 11, 2022 in which over 60 organization representatives participated. The RFP's are due no later than September 7, 2022 and awards will be made by the Board in October.

Deputy County Manager Brown further reviewed the category of proposals related to COVID-19 impacts to eligible governments, the evaluation and timeline for same and the eligible respondents.

Upon inquiry from Chair Horstman, Deputy County Manager Brown noted the Board did allocate the \$5.1 million dollars to different categories. 25. Presentation, discussion and possible direction regarding a Schultz/Pipeline flood area update. **Flood Control District**

Deputy County Manager/Flood Control District Director Lucinda Andreani noted there has continued to be active, significant rains and many flood events. She spoke about cleaning efforts, properties in severe risk of head cuts and access issues, a recent application submission to the NRCS, the Emergency Watershed Protection Program, for about 24 million dollars for projects in five of the watersheds: Wupatki Trails for expansion of the channels in the existing easement, Brandis area for repairs to sections of the channel and repairs to several channels in the Copeland, Campbell and Peaceful flood corridors. She said that is just for off forest areas because the EWPP funding can only be used on private property or within public easements, cannot be used on forest service property.

She added that staff is developing a long-term mitigation plan and will be meeting tomorrow with federal representatives to talk about said plan and also beginning a series of corridor

meetings to collect public input and share information related to the challenges of getting this kind of federal money, engineering challenges, and policy processes related to the Forest Service. Staff will also be making a second application to address the Government Tank corridor and then possibly a third application.

Director Andreani noted that so far this monsoon has delivered almost 10 inches of rainfall in Doney Park and combined with the flooding coming from the mountain, the situation has really been exacerbated. She spoke about plans for on-forest mitigation and highway crossings (both on 180 and 89) and costs that are expected to be much higher.

Individual Board members thanked Director Andreani and staff who are working diligently on flood mitigation efforts and spoke about the challenges with funding.

(The Board addressed item 21 at 4:18 p.m.)
