Coconino County is part of a core planning team that values wildlife and supports a system of watchable wildlife sites.

**FORT TUTHILL COUNTY PARK**: Nestled in cool Ponderosa pine forest 3 miles south of Flagstaff, the County’s premier 633-acre regional park is open year round as a recreation and watchable wildlife destination. In the summer, Fort Tuthill hosts a wide array of unique events and festivals, such as the Coconino County Fair and equestrian events, as well as concerts and music festivals. Park next to the bike park and access several miles of loop trails within the Park which offer opportunities for bird-watching and wildlife viewing.

**ROGERS LAKE COUNTY NATURAL AREA**: Rogers Lake is a high-elevation wetland located southeast of Flagstaff. The area is important to numerous wildlife species. Embark on the multi-use trail system to enjoy views of the San Francisco Peaks and watch for wildlife: prairie dogs, bald eagles, elk, waterfowl, coyote, frogs and more!

PUMPHOUSE COUNTY NATURAL AREA:
One of the rarest wildlife habitats in Arizona, this 128-acre natural area is a spring-fed wetland. It attracts a wide variety of wildlife, including elk, fox, deer, waterfowl, wading birds, migratory birds, wintering bald eagles, elk, garter snakes, songbirds, and small mammals. Hike the Pumphouse Nature Trail, an easy ¾-mile round-trip trail with wildlife viewing blinds, stone benches and educational displays. Visitors should park at nearby Raymond County Park.

Flagstaff, AZ 86005
(Kachina Village)

SAWMILL MULTICULTURAL ART & NATURE COUNTY PARK: Built on a "brownfield" where one of Flagstaff's first sawmills operated from 1908 to 1993, this site overlooks Sinclair Wash and offers 6 backyard habitat gardens that demonstrate the diversity attracted by native vegetation! Wildlife watchers are treated to hummingbirds and butterflies buzzing overhead, as well as raccoons, skunks and other small mammals who often visit the pond garden. On warm days, lizards and snakes can be seen sunbathing on rocks at the lizard garden! Stroll the trails and visit Willow Bend Environmental Education Center!
