Coconino County

Single Audit Report
Year Ended June 30, 2018

A Report to the Arizona Legislature

Lindsey A. Perry
Auditor General

ARIZONA Auditor General
Making a Positive Difference
The Arizona Office of the Auditor General’s mission is to provide independent and impartial information and specific recommendations to improve the operations of State and local government entities. To this end, the Office provides financial audits and accounting services to the State and political subdivisions, investigates possible misuse of public monies, and conducts performance audits and special reviews of school districts, State agencies, and the programs they administer.

Comprehensive Annual Financial Report
Independent auditors’ report on internal control over financial reporting and on compliance and other matters based on an audit of basic financial statements performed in accordance with Government Auditing Standards

Members of the Arizona State Legislature

The Board of Supervisors of Coconino County, Arizona

We have audited, in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and aggregate remaining fund information of Coconino County as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the County’s basic financial statements, and have issued our report thereon dated March 27, 2019.

Internal control over financial reporting

In planning and performing our audit of the financial statements, we considered the County’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County’s internal control. Accordingly, we do not express an opinion on the effectiveness of the County’s internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify certain deficiencies in internal control over financial reporting that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County’s basic financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2018-02, 2018-03, and 2018-04 to be material weaknesses.
A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2018-01 to be a significant deficiency.

Compliance and other matters

As part of obtaining reasonable assurance about whether the County’s basic financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Coconino County response to findings

Coconino County’s responses to the findings identified in our audit are presented in its corrective action plan at the end of this report. The County’s responses were not subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on them.

Purpose of this report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the County’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Lindsey Perry, CPA, CFE
Auditor General

March 27, 2019
Independent auditors’ report on compliance for each major federal program; report on internal control over compliance; and report on schedule of expenditures of federal awards required by the Uniform Guidance

Members of the Arizona State Legislature

The Board of Supervisors of Coconino County, Arizona

Report on compliance for each major federal program

We have audited Coconino County’s compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018. The County’s major federal programs are identified in the summary of auditors’ results section of the accompanying schedule of findings and questioned costs.

Management’s responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors’ responsibility

Our responsibility is to express an opinion on compliance for each of the County’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for major federal programs. However, our audit does not provide a legal determination of the County’s compliance.
Basis for qualified opinion on Forest Service Schools and Roads Cluster

As described in the accompanying schedule of findings and questioned costs, the County did not comply with the requirements regarding the Forest Service Schools and Roads Cluster as described in item 2018-103 for reporting and item 2018-104 for special tests and provisions. Compliance with such requirements is necessary, in our opinion, for the County to comply with the requirements applicable to that program.

Qualified opinion on Forest Service Schools and Roads Cluster

In our opinion, except for the noncompliance described in the basis for qualified opinion paragraph, Coconino County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Forest Service Schools and Roads Cluster for the year ended June 30, 2018.

Unmodified opinion on each of the other major federal programs

In our opinion, Coconino County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditors’ results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2018.

Other matters

The results of our auditing procedures disclosed other instances of noncompliance that are required to be reported in accordance with the Uniform Guidance and that are described in the accompanying schedule of findings and questioned costs as items 2018-101 and 2018-102. Our opinion on each major federal program is not modified with respect to these matters.

Report on internal control over compliance

The County’s management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County’s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County’s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.
Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, we did identify certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2018-101 through 2018-104 that we consider to be material weaknesses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Coconino County response to findings

Coconino County’s responses to the findings identified in our audit are presented in its corrective action plan at the end of this report. The County’s responses were not subjected to the auditing procedures applied in the audit of compliance, and accordingly, we express no opinion on them.

Report on schedule of expenditures of federal awards required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and aggregate remaining fund information of Coconino County as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the County’s basic financial statements. We issued our report thereon dated March 27, 2019, that contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming our opinions on the financial statements that collectively comprise the County’s basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of the County’s management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Lindsey Perry, CPA, CFE

Financial statement findings

2018-01
Managing risk

Condition and context—The County’s process for managing its risks did not include an overall risk-assessment process that included identifying, analyzing, and responding to the County-wide information technology (IT) risks, such as potential harm from unauthorized access, use, disclosure, disruption, modification, or destruction of IT data and systems. Also, it did not include identifying, classifying, and inventorying sensitive information that might need stronger access and security controls and evaluating and determining the business functions and IT systems that would need to be restored quickly if the County were impacted by disasters or other system interruptions.

Criteria—Effectively managing risk at the County includes an entity-wide risk-assessment process that involves members of the County’s administration and IT management to determine the risks the County faces as it seeks to achieve its objectives to not only report accurate financial information and protect its IT systems and data but to also carry out its overall mission and service objectives. The process should provide the basis for developing appropriate responses based on identified risk tolerances and specific potential risks to which the County might be subjected. To help ensure the County’s objectives can be met, an annual risk assessment should include considering IT risks. For each identified risk, the County should analyze the identified risk and develop a plan to respond within the context of the County’s defined objectives and risk tolerances. The process of managing risks should also address the risk of unauthorized access and use, modification, or loss of sensitive information and the risk of losing the continuity of business operations in the event of a disaster or system interruption.

Effect—The County’s administration and IT management may put the County’s operations and IT systems and data at unintended and unnecessary risk.

Cause—The County was in the process of revising its entity-wide risk management written policies and procedures as of June 30, 2018.

Recommendations—The County should identify, analyze, and reduce risks to help prevent undesirable incidents and outcomes that could impact business functions and IT systems and data. It also should plan for where resources should be allocated and where critical controls should be implemented. To help ensure it has effective entity-wide policies and procedures to achieve these objectives, the County should follow guidance from a credible IT security framework such as that developed by the National Institute of Standards and Technology. Responsible administrative officials and management over finance, IT, and other entity functions should be asked for input in the County’s process for managing risk. The County should conduct the following as part of its process for managing risk:

- Perform an annual entity-wide IT risk-assessment process that includes evaluating risks such as risks of inappropriate access that would affect financial data, system changes that could adversely impact or disrupt system operations, and inadequate or outdated system security.
- Evaluate and manage the risks of holding sensitive information by identifying, classifying, and inventorying the information the County holds to assess where stronger access and security controls may be needed to protect data in accordance with State statutes and federal regulations.
- Evaluate and determine the business functions and IT systems that would need to be restored quickly given the potential impact disasters or other IT system interruptions could have on critical organizational
functions, such as public safety, and operations, such as payroll and accounting, and determine how to prioritize and plan for recovery.

The County’s responsible officials’ views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year finding 2017-03.

2018-02
Information technology (IT) controls—access, configuration and change management, security, and contingency planning

Condition and context—The County’s control procedures were not sufficiently designed, documented, and implemented to respond to risks associated with its IT systems and data. The County lacked adequate procedures over the following:

- **Restricting access to its IT systems and data**—Procedures did not consistently help prevent or detect unauthorized or inappropriate access.
- **Configuring systems securely and managing system changes**—Procedures did not ensure IT systems were securely configured and all changes were adequately managed.
- **Securing systems and data**—IT security policies and procedures lacked controls to prevent unauthorized or inappropriate access or use, manipulation, damage, or loss.
- **Developing and documenting a contingency plan**—Plan should include steps necessary for restoring operations, prioritizing and recovering vital IT systems and data, and conducting daily operations in the event of a disaster, system or equipment failure, or other interruption.

Criteria—The County should have effective internal controls to protect its IT systems and help ensure the integrity and accuracy of the data it maintains.

- **Logical access controls**—Help to ensure systems and data are accessed by users who have a need, systems and data access granted is appropriate, and key systems and data access is monitored and reviewed.
- **Well-defined documented configuration management process**—Ensures the County’s IT systems are configured securely and that changes to the systems are identified, documented, evaluated for security implications, tested, and approved prior to implementation. This helps limit the possibility of an adverse impact on the system security or operations. Separation of responsibilities is an important control for system changes; the same person who has authority to make system changes should not put the change into production. If those responsibilities cannot be separated, a post-implementation review should be performed to ensure the change was implemented as designed and approved.
- **IT security internal control policies and procedures**—Help prevent, detect, and respond to instances of unauthorized or inappropriate access or use, manipulation, damage, or loss to its IT systems and data.
- **Comprehensive documented and tested contingency plan**—Provides the preparation necessary to place the plan in operation and helps to ensure business operations continue and systems and data can be recovered in the event of a disaster, system or equipment failure, or other interruption.

Effect—There is an increased risk that the County may not adequately protect its IT systems and data, which could result in unauthorized or inappropriate access and the loss of confidentiality and integrity of
systems and data. It also increases the County’s risk of not being able to effectively continue daily operations and completely and accurately recover vital IT systems and data in the event of a disaster or system interruption.

**Cause**—The County was in the process of revising its logical access, configuration and change management, security, and contingency planning written policies and procedures as of June 30, 2018.

**Recommendations**—To help ensure the County has effective policies and procedures over its IT systems and data, the County should follow guidance from a credible IT security framework such as that developed by the National Institute of Standards and Technology. To help achieve these control objectives, the County should develop, document, and implement control procedures in each IT control area described below:

**Access**
- Assign and periodically review employee user access ensuring appropriateness and compatibility with job responsibilities.
- Remove terminated employees’ access to IT systems and data.
- Review all other account access to ensure it remains appropriate and necessary.
- Evaluate the use and appropriateness of accounts shared by 2 or more users and manage the credentials for such accounts.
- Enhance authentication requirements for IT systems.
- Manage employee-owned and entity-owned electronic devices connecting to the County’s systems and data.
- Manage remote access to the County’s systems and data.

**Configuration and change management**
- Establish and follow a documented change management process.
- Review proposed changes for appropriateness, justification, and security impact.
- Document changes, testing procedures and results, change approvals, and post-change review.
- Develop and document a plan to roll back changes in the event of a negative impact to IT systems.
- Test changes prior to implementation.
- Separate responsibilities for the change management process or, if impractical, perform a post-implementation review to ensure the change was implemented as approved.
- Configure IT resources appropriately and securely and maintain configuration settings.
- Manage software installed on employee computer workstations.

**Security**
- Perform proactive key user and system activity logging and log monitoring, particularly for users with administrative access privileges.
- Prepare and implement a security-incident-response plan clearly stating how to report and handle incidents.
- Provide all employees ongoing training on IT security risks and their responsibilities to ensure systems and data are protected.
- Perform IT vulnerability scans and remediate vulnerabilities in accordance with a remediation plan.
- Identify, evaluate, and apply patches in a timely manner.
Contingency planning

- Develop and implement a contingency plan and ensure it includes all required elements to restore critical operations, including being prepared to enable moving critical operations to a separate alternative site if necessary.
- Test the contingency plan.
- Train staff responsible for implementing the contingency plan.
- Back up and securely maintain backups of systems and data.

The County’s responsible officials’ views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year findings 2017-04 (access), 2017-05 (configuration and change management), 2017-06 (IT security), and 2017-07 (contingency planning).

2018-03
Separation of financial system responsibilities

Condition and context—One individual is responsible for managing and operating the County’s financial system. Specifically, this individual operates the infrastructure, makes all operating system and application software modifications, grants user access to the system, and manages the system’s database.

Criteria—The County should maintain effective internal controls over financial reporting that include separating responsibilities of managing and operating its information technology (IT) systems and data and reducing any one individual’s ability to process transactions that may circumvent established controls to help reduce the risk of error, misuse, or fraud. In addition, the County should assign responsibilities for managing its IT systems and data to more than one individual to avoid the overreliance on any one individual for its financial operations.

Effect—Not separating critical responsibilities of managing and operating IT systems and data increases the possibility that errors in financial and other sensitive data could occur and that misuse or fraud would not be prevented or detected by the County’s established controls. In addition, the County risks the ability to fully continue financial operations if the individual is not available.

Cause—The County’s financial system has been in place for many years, and one individual has been solely assigned the responsibilities of managing these resources.

Recommendations—To help reduce the risk of error, misuse, or fraud and its overreliance on any one individual for its financial operations, the County should separate the responsibilities for managing and operating its financial system infrastructure and software from the responsibilities of managing the system data and granting user access to the system.

The County’s responsible officials’ views and planned corrective action are in its corrective action plan included at the end of this report.

This finding is similar to prior-year finding 2017-02.
Annual financial report preparation

**Condition and context**—The County did not have adequate policies and procedures for preparing its Comprehensive Annual Financial Report (CAFR) to ensure it was accurate and complete and prepared in accordance with U.S. generally accepted accounting principles (GAAP). As a result, the County:

- Understated revenues and related receivable balances it reported in the financial statements and note disclosures by $4.4 million.
- Overstated cash and accrued payroll and employee benefits balances it reported in the financial statements by $14.4 million.
- Overstated County Treasurer’s Investment Pool total additions and deductions it reported in the notes to the financial statements by $97.6 million and $83.2 million, respectively.
- Overstated an interfund transfer from the Jail District Fund to the General Fund it reported in the financial statements and note disclosures by $860,000.
- Overstated deferred outflows of resources related to pensions and pension contributions it reported in the financial statements and note disclosures by $1.5 million.

**Criteria**—The County’s Board of Supervisors and management depend on accurate information to fulfill their oversight responsibilities and to report accurate information to the public and agencies from which the County receives funding. Accordingly, the County should improve its established policies and procedures for preparing its CAFR to help ensure it is accurate and complete and prepared in accordance with GAAP.

**Effect**—There is an increased risk that the County’s financial statements could contain significant errors that would be misleading to those that rely on the information. The County made necessary audit adjustments to correct the errors we found during our audit.

**Cause**—The County did not follow its existing policies and procedures for compiling information to prepare its CAFR. Further, it did not thoroughly review the information and schedules supporting its CAFR.

**Recommendations**—To help ensure that the County’s CAFR is accurate and complete and prepared in accordance with GAAP, the County should:

- Follow its established policies and procedures when compiling information to prepare its CAFR.
- Improve its policies and procedures by requiring an employee who is independent of the report’s preparation to review the information and schedules supporting the report. This review should ensure that the information reported is accurate and complete and prepared in accordance with GAAP.

The County’s responsible officials’ views and planned corrective action are in its corrective action plan included at the end of this report.
Federal award findings and questioned costs

2018-101

Cluster name: WIOA Cluster
CFDA numbers and names:
  17.258 WIOA Adult Program
  17.259 WIOA Youth Activities
  17.278 WIOA Dislocated Worker Formula Grants

Award number and years: DI16-002119, July 1, 2015 through June 30, 2020
Federal agency: U.S. Department of Labor
Pass-through grantor: Arizona Department of Economic Security
Compliance requirement: Procurement
Questioned costs: None

Condition and context—The County did not follow its written policies and procedures requiring purchases using federal monies to comply with the Uniform Guidance procurement standards. Specifically, the County issued a request for proposal (RFP) during the fiscal year to purchase $30,000 of professional services for the WIOA Cluster. However, the RFP’s scope of work did not include a clear and accurate description of the technical requirements for the services being procured.

Criteria—In accordance with 2 Code of Federal Regulations (CFR) §200.319 (c)(1), the County must have written policies and procedures for all solicitations that include a clear and accurate description of the technical requirements for the material, product, or service to be purchased, including the qualitative nature and any minimum essential characteristics and standards needed. Also, the County must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303).

Effect—The County could enter into a contract that does not provide the best value to the federal program. This finding has the potential to affect other federal programs the County administers.

Cause—The County did not follow its written purchasing policies and procedures due to an oversight.

Recommendation—The County should follow its written policies and procedures to ensure that all purchases using federal monies comply with the Uniform Guidance procurement standards that require all solicitations to include a clear and accurate description of the technical requirements for the material, product, or service to be purchased.

The County’s responsible officials’ views and planned corrective action are in its corrective action plan at the end of this report.
Cluster name: Forest Service Schools and Roads Cluster  
CFDA number and name: 10.665 Schools and Roads—Grants to States  
Award number and year: N/A  
Federal agency: U.S. Department of Agriculture  
Compliance requirements: Activities allowed or unallowed and earmarking  
Questioned costs: $26,864

Condition and context—For fiscal year 2018, the County was required to allocate $220,727 of program monies as Title III for wildfire protection or emergency wildfire services for the County’s citizens and their property. However, the County only allocated $193,864 to Title III purposes, and the remaining Title III allocation of $26,864 was spent toward County schools and roads.

Criteria—In accordance with 16 United States Code (U.S.C.) §§7112 and 7142, the County was required to allocate 7 percent of its share of Forest Service Schools and Roads Cluster monies to Title III and ensure those monies were used for wildfire protection or emergency wildfire services for its citizens and their property. Also, the County must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303).

Effect—The County’s noncompliance resulted in questioned costs of $26,864 and without adequate policies and procedures to ensure compliance, it increases the risk that the County will lose these and future monies if the federal agency disallows the costs.

Cause—The County did not believe one of the direct payments received during the fiscal year was subject to the program’s earmarking requirements requiring the allocation for Title III purposes.

Recommendation—To help ensure that the County complies with U.S.C. §§7112 and 7142, it should establish policies and procedures that include reviewing and approving the allocation of its share of Forest Service Schools and Roads Cluster’s program monies by comparing the amount the County received to the federal awarding agency’s payment reports and federal requirements.

The County’s responsible officials’ views and planned corrective action are in its corrective action plan at the end of this report.
2018-103

Cluster name: Forest Service Schools and Roads Cluster
CFDA number and name: 10.665 Schools and Roads—Grants to States
Award number and year: N/A
Federal agency: U.S. Department of Agriculture
Compliance requirements: Reporting
Questioned costs: None

Condition and context—the County did not accurately report financial information on its calendar year 2017 Title III report. Specifically, the County overstated expenditures related to patrol activities, search and rescue, and other emergency services performed on national forests by $112,224. Additionally, the County overstated expenditures related to carrying out activities under the Firewise Communities program by $13,219.

Criteria—in accordance with the Secure Rural Schools and Community Self-Determination Act §303(a), the County must submit an annual certification that it used its Title III monies for the uses authorized under §302(a). Also, the County must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303).

Effect—the County submitted inaccurate financial information to the federal grantor, the U.S. Department of Agriculture, and without accurate information, it may result in potential errors in analysis or other determinations it needs to make at a national level. This finding did not result in questioned costs because the report was not used to request reimbursement of federal expenditures.

Cause—the County did not have an adequate review process in place to ensure that its Title III report contained accurate financial information.

Recommendation—to help ensure its Title III report contains accurate financial information, the County should improve its established procedures by requiring a more detailed review of all underlying data supporting the report.

The County’s responsible officials’ views and planned corrective action are in its corrective action plan at the end of this report.

This finding is similar to prior year finding 2017-102.

2018-104

Cluster name: Forest Service Schools and Roads Cluster
CFDA number and name: 10.665 Schools and Roads—Grants to States
Award numbers and years: N/A
Federal agency: U.S. Department of Agriculture
Compliance requirement: Special Tests and Provisions
Questioned costs: None

Condition and context—Prior to expending 2018 Forest Service Schools and Roads Cluster program monies, the County did not prepare and publish or submit to its resource advisory committee the required
proposal for its intended wildfire protection or emergency wildfire services uses of Title III monies. The County allocated $193,864 for these purposes.

Criteria—In accordance with 16 U.S.C. §7142(b), the County must publish a proposal of the intended use of the Cluster’s Title III monies and submit the proposal to its resource advisory committee at least 45 days prior to spending the monies. Also, the County must establish and maintain effective internal control over its federal awards that provides reasonable assurance that it is managing them in compliance with all applicable laws, regulations, and award terms (2 CFR §200.303).

Effect—The County did not comply with the Cluster’s Title III special tests and provisions, which may result in the County making decisions about the uses of Title III monies that do not take into account its citizens’ and other interested parties’ viewpoints. This finding did not result in questioned costs because the monies were authorized for allowable activities.

Cause—The County did not have written policies and procedures to ensure compliance with the Cluster’s Title III special tests and provisions.

Recommendation—To help ensure that the County complies with U.S.C. §7142(b), it should establish policies and procedures to help ensure that the intended uses of its Title III monies are properly submitted in the required proposal.

The County’s responsible officials’ views and planned corrective action are in its corrective action plan at the end of this report.

See accompanying notes to schedule.
Coconino County
Notes to schedule of expenditures of federal awards
Year ended June 30, 2018

Note 1 - Basis of presentation

The accompanying schedule of expenditures of federal awards includes Coconino County’s federal grant activity for the year ended June 30, 2018. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).

Note 2 - Summary of significant accounting policies

Expenditures reported on the schedule are reported on the modified accrual basis of accounting, except for Schools and Roads—Grants to States (10.665). For this program, revenues received during the fiscal year pursuant to Titles I and III are considered earned and reported as expenditures. All remaining expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

Note 3 - Catalog of Federal Domestic Assistance (CFDA) numbers

The program titles and CFDA numbers were obtained from the federal or pass-through grantor or the 2018 Catalog of Federal Domestic Assistance. When no CFDA number had been assigned to a program, the 2-digit federal agency identifier and the federal contract number were used. When there was no federal contract number, the 2-digit federal agency identifier and the word “unknown” were used.

Note 4 - Indirect cost rate

The County did not elect to use the 10 percent de minimis indirect cost rate as covered in 2 CFR §200.414.
March 22, 2019

Lindsey Perry
 Auditor General
 2910 N. 44th Street, Suite 410
 Phoenix, AZ 85018

Dear Ms. Perry:

We have prepared the accompanying corrective action plan as required by the standards applicable to financial audits contained in Government Auditing Standards and by the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Specifically, for each finding we are providing you with our responsible officials’ views, the names of the contact people responsible for corrective action, the corrective action planned, and the anticipated completion date.

Sincerely,

Michael Townsend
Chief Financial Officer
Financial Statement Findings

2018-01
Managing risk

Contact Persons: Matt Fowler, IT Director/CIO

Anticipated completion date: July 1, 2020

Corrective Action: Concur. The County CIO is implementing NIST 800-53 rev4 best practices to properly identify/classify assets and prevent disruption to system operations. This will include but not limited to performing internal and external risk assessments annually, implementing stronger technical controls, testing cyber liability policies, and routinely restore services from backup.

2018-02
Information technology (IT) controls—access, configuration and change management, security, and contingency planning

Contact Persons: Matt Fowler, IT Director/CIO

Anticipated completion date: July 1, 2020

Corrective Action: Concur. The County CIO is implementing NIST 800-53 rev4 best practices to improve the security posture regarding Access, Configuration Management, Security, and Contingency Planning.

2018-03
Separation of financial system responsibilities

Contact Persons: Matt Fowler, IT Director/CIO; Mike Townsend, Finance Director, Finance Department

Anticipated completion date: July 1, 2018

Corrective Action: Concur. The County CFO and CIO recognize the importance of segregation of duties and least privilege. This finding has been fully addressed.
2018-04

Annual financial report preparation

Contact Persons: Tom Johnson, Accounting Manager, Finance Department; Mike Townsend, Finance Director, Finance Department

Anticipated completion date: June 30, 2019

Corrective Action: Concur. The County will improve its established policies and procedures when compiling information to prepare its CAFR by requiring an employee who is independent of the report’s preparation to review the information and schedules supporting the report.

Federal Award Findings and Questioned Costs

Cluster Name: WIOA Cluster
CFDA No. and Name: 17.258 WIOA Adult Program
              17.259 WIOA Youth Activities
              17.278 WIOA Dislocated Worker Formula Grants

Responsible Persons: Scott Richardson, Finance Purchasing Manager; Megan Cunningham, Assistant Finance Director.
Anticipated completion date: June 30, 2018

Corrective Action Plan:
Coconino County concurs with the recommendation. The One Stop Operator Request for Proposal did include requirements in the Scope of Services. However, any future OSO procurements will also include the technical requirements listed within TEGL 15-16 guidance. This Federal Guidance will be incorporated into all solicitation processes requiring this compliance.

2018-102

Cluster Name: Forest Service Schools and Roads Cluster
CFDA No. and Name: 10.665 Schools and Roads - Grants to States
Coconino County  
Corrective Action Plan  
Year Ended June 30, 2018

**Responsible Persons:** Thomas Johnson, Finance Accounting Manager; Megan Cunningham, Assistant Finance Director.  
**Anticipated completion date:** June 30, 2018

---

**Corrective Action Plan:**  
Coconino County concurs with the recommendation to establish procedures to review and approve the allocation of the Forest Service Schools and Roads grant monies. Finance will draft a process that includes comparing the amount received to the funder’s payment records, reviewing federal requirements, allocating the funds, and reviewing the calculations.

**2018-103**

**Cluster Name:** Forest Service Schools and Roads Cluster  
**CFDA No. and Name:** 10.665 Schools and Roads - Grants to States  
**Responsible Persons:** Thomas Johnson, Finance Accounting Manager; Megan Cunningham, Assistant Finance Director.  
**Anticipated completion date:** June 30, 2018

---

**Corrective Action Plan:**  
Coconino County concurs with the recommendation to improve the established procedures for preparing the financial report. Finance will revise the current process to ensure that the financial results are accurate and reviewed.

**Anticipated completion date:** June 30, 2018

---

**Corrective Action Plan:**  
Coconino County concurs with the recommendation to establish procedures to ensure Title III monies are properly administered. Finance will draft a process that outlines the steps to publish
Coconino County
Corrective Action Plan
Year Ended June 30, 2018

A proposal for the intended use of the Title III monies and submit the proposal to its resource advisory committee.
February 15, 2019

Lindsey Perry  
Auditor General  
2910 N. 44th Street, Suite 410  
Phoenix, AZ 85018

Dear Ms. Perry:

We have prepared the accompanying summary schedule of prior audit findings as required by the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Specifically, we are reporting the status of audit findings included in the prior audit’s schedule of findings and questioned costs.

Sincerely,

Michael Townsend  
Chief Fiscal Officer

| **Financial Accounting System Responsibilities** |
| Finding No: 2017-02 |
| Status: Not Corrected / Partial Improvement |
| Explanation: The County’s prior financial system did not have the capability of separating the responsibilities for managing and operating the financial system infrastructure and software from the responsibilities of managing the system data and granting user access to the system. The County implemented a new ERP system on July 1, 2018 which does have this capability. Additionally, to ensure continuity of its daily operations, the County has cross trained two employees, a Senior Accountant and Buyer in the Finance Department to perform duties related to managing and operating its financial accounting system. The Information Technology Department is under new leadership and anticipates implementing new enhancements to address these issues into the future. |

| **Information Resources Risk Assessment Procedures** |
| Finding No: 2017-03 |
| Status: Not Corrected |
| Explanation: To ensure adequate policies and procedures to identify, analyze, and respond to risks that may impact IT resources, the County will further develop a county-wide IT risk assessment process that incorporates NIST best practices. The Information Technology Department is under new leadership and anticipates implementing new enhancements to address these issues into the future. |

| **The County should improve access controls over its information technology resources** |
| Finding No: 2017-04 |
| Status: Not Corrected |
| Explanation: To help prevent and detect unauthorized access or use, manipulation, damage, or loss to IT resources, the County will further develop and implement effective logical and physical access policies and procedures over its IT resources. The Information Technology Department is under new leadership and anticipates implementing new enhancements to address these issues into the future. |

| **The County should improve its configuration management processes over its information technology resources** |
| Finding No: 2017-05 |
| Status: Not Corrected |
| Explanation: To help prevent and detect unauthorized access or use, manipulation, damage, or loss to IT resources, the County will further develop and implement effective configuration management policies and procedures over its IT resources. The Information Technology Department is under new leadership and anticipates implementing new enhancements to address these issues into the future. |
The County should improve security over its information technology resources
Finding No: 2017-06
Status: Not Corrected
Explanation: Policies and procedures are currently being drafted by the County’s IT Department to improve security over its information technology resources. The Information Technology Department is under new leadership and anticipates implementing new enhancements to address these issues into the future.

Disaster Recovery Plan and Data Backup Procedures for Information Technology Resources
Finding No: 2017-07
Status: Not Corrected
Explanation: To help ensure its operations continue in the event of a disaster, system or equipment failure, or other interruption, the County will further develop its contingency planning procedures. The Information Technology Department is under new leadership and anticipates implementing new enhancements to address these issues into the future.

Status of Federal Award Findings and Questioned Costs
CFDA No: 93.069 Public Health Emergency Preparedness
Finding No: 2017-101
Status: Fully correct.
Cluster Name: Forest Service Schools and Roads Cluster
CFDA No: 10.665 Schools and Roads – Grants to States
Finding No: 2017-102
Status: Not correct.
Explanation: To help ensure the Schools and Roads report contains accurate financial procedures, the County will continue to develop and improve the procedures requiring a detailed review of the underlying data supporting the report.
