

## What Former Law Clerks Have to Say

"The Coconino County Attorney has provided me with the most interesting and challenging work that I've faced throughout my three years in law school. It's a terrific place to work."

"The two things I like most about my experience working for the County Attorney's office are trust and responsibility. I was assigned to important cases on my first day of work and, since then, I have been given numerous chances to present my work to experienced prosecutors who are consistently responsive and willing to guide my progress."

"Working in the civil division of the County Attorney's Office has given me an opportunity to explore diverse areas of the law and has exposed me to legal issues I never would have expected to encounter. The attorneys here are engaging, helpful and passionate about their work. Plus, Flagstaff is an amazing place to spend a summer."

"I had previously interned at various prosecuting agencies in Arizona. But the quality that set this office apart for me was the one-on-one mentoring I received-a quality that is lacking in larger offices. For example, as an intern with this office, I was a valued member of the trial team in a five-week long first degree murder trial. Not only did I research and draft motions, and attend hearings, but I sat with the trial attorneys every day throughout the trial, providing input and discussing strategy. My experience at the Coconino County Attorney's Office prepared me to be an attorney more than all three years of law school."
