

Tips for Reviewing Your APS Bill

Tip 1: Login into your APS Account. If you do not have an online account, register for an online account. <https://www.aps.com/en/residential/home>

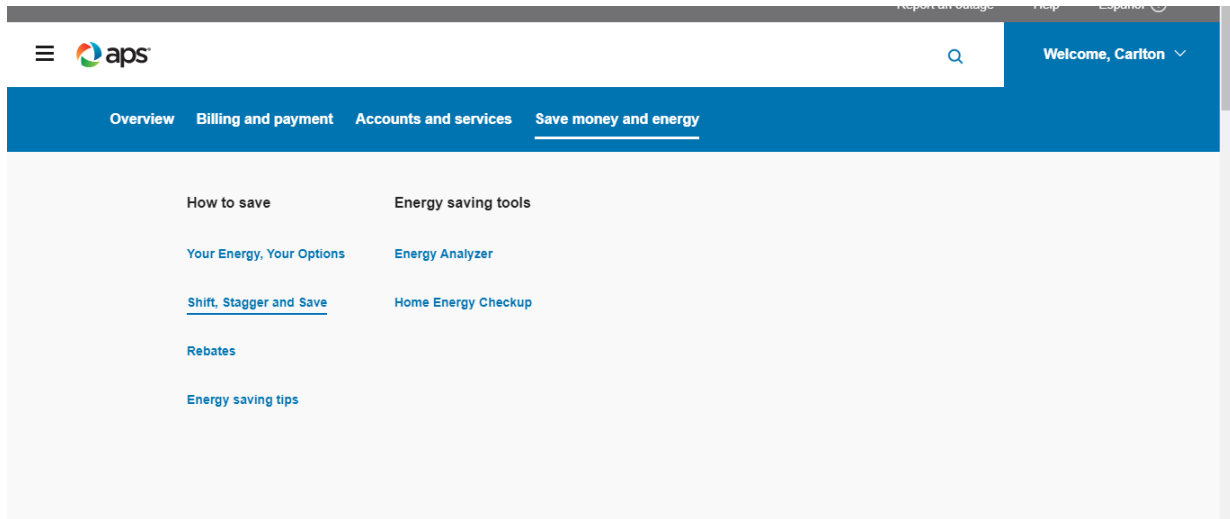

Tip 2: Make sure you have the right plan for your energy usage. Under “Accounts and Services” click on “Plan Comparison Tool” to compare different rate plans. Consider switching your service plan to save money. You can also choose their “Green Choice Program” for an additional cost, which allows you to select a portion of your power that comes from reusable energy sources. However, you can offset 50% of your energy usage with clean power through [Arcadia](#) completely FREE.

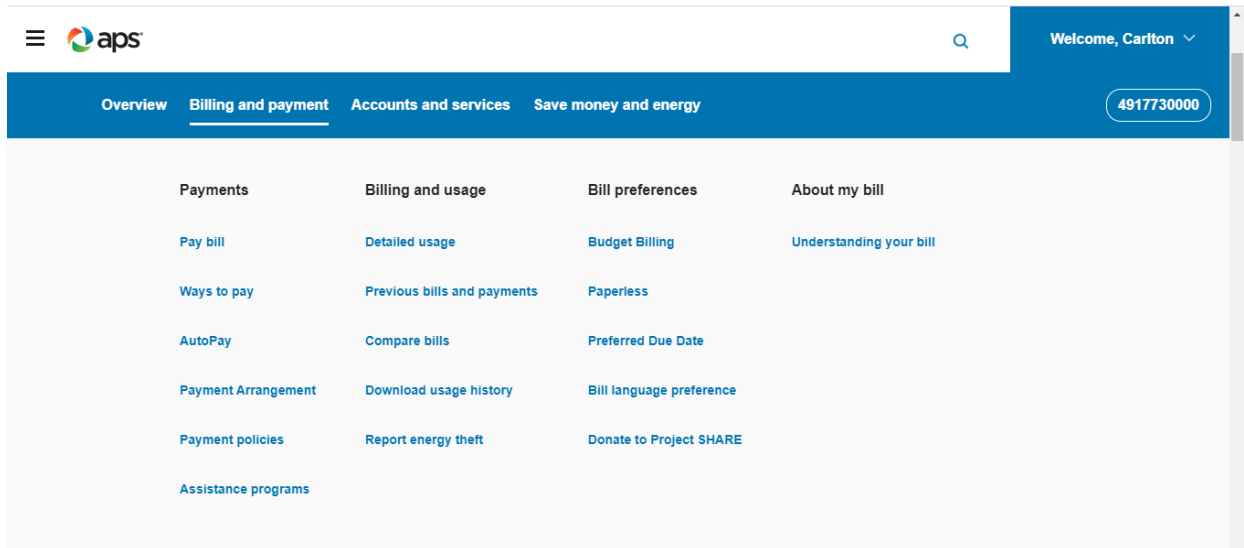

Tip 3: Under “Save Money and Energy” click on “Energy Analyzer” to help you determine where you might save energy and money.

Tip 4: Click on “Shift, Stagger, and Save” to learn how to optimize off-peak hours for when you use your appliances. Click on “Energy Saving Tips” to find other ways to save.

Tip 5: Under “Billing and Payment”, you can review “Detailed Usage” which breaks down exactly how many kilowatt hours you have used over a day or month, you can compare usage history and even download a report. Under “Billing and Usage” you can also review previous bills and payments, compare bills and download usage history.

What is a kilowatt hour? A kilowatt hour is a measure of energy, which is power over time. For more information on kilowatt hours, click [here](#).
