

Bellemont Access & Safety Improvements Project: Phase A Groundbreaking

The County's contractor is preparing to break ground on Phase A of the **Bellemont Access & Safety Improvements Project**. Phase A of the project includes a four-foot shoulder widening of Shadow Mountain Drive to install multimodal lanes between Alpine Road and Pegasus Drive.

Banicki Construction will work during daylight hours, Monday through Friday with some weekend work possible. Flaggers, signage and other traffic controls will be used to guide vehicles through the work zone. Drivers should expect delays during construction and plan travel accordingly.

Phase A of the project is expected to be completed by this summer; however, this schedule is subject to change due to weather or other unforeseen conditions.

The **Bellemont Access and Safety Improvements Project** will address traffic flow and safety issues at the intersection of Transwestern Road, Shadow Mountain Drive and Brannigan Park Road in Bellemont. The project, which will tie into Arizona Department of Transportation (ADOT) right of way, is being built in two phases. Phase B, which is scheduled to start this summer and be completed this winter, will include the construction of a roundabout and development of an alternative business access to improve traffic circulation for trucks, businesses, travelers and residents.

During the project, construction information will be regularly updated and posted on the project's web page at www.coconino.az.gov/BellemontAccessSafetyProject and available on Facebook by "Liking" Coconino County Roads. If you have any questions or concerns about this project, then please contact Public Works email at countyroadsinfo@coconino.az.gov or call us at 928-679-8300.

If you would like email updates regarding the **Bellemont Access and Safety Improvements Project**, then please email us at countyroadsinfo@coconino.az.gov with "Add Me to Bellemont Project E-mail List" in the subject line. Thank you.
