

COVID-19 COCONINO COUNTY WEEKLY UPDATE

Morbidity and Mortality Weekly Report (MMWR)
Week 24 (6/12/2022- 6/18/2022)

COCONINO COUNTY
June 24, 2022

Situation Summary

MMWR Week 24 (6/12/2022-6/18/2022)

A total of 16,598 positive COVID-19 cases have been reported among Coconino County residents from January 1, 2022 – June 18, 2022.

Deaths (2022): 45 (0.3% of cases)
Hospitalizations (2022): 385 (2.3% of cases)
Total Up-To-Date: 42,160 (52.7% of fully vaccinated)

Cases Reported Week 24 (June 12, 2022 - June 18, 2022):

***CLI is reported using hospital surveillance at the county level. Banner Page and Flagstaff Medical Center are reporting CLI.*

Community Levels

Coconino County is currently at a **Medium[†]** community level.

New Cases (per 100,000 people in the last 7 days)	Indicator	Low	Medium	High
200 or more	New COVID-19 admissions per 100,000 population (7- day total)	NA	<10.0 Coconino: 8.4	≥10.0
	Percent of staffed inpatient beds occupied by COVID-19 patients (7-day average)	NA	<10.0% Coconino: 6.7%	≥10.0%

[†]The COVID-19 community level is determined by the higher of the inpatient beds and new admissions indicators, based on the current level of new cases per 100,000 population in the past 7 days. For more information about the CDC's Community Levels see: <https://www.cdc.gov/coronavirus/2019-ncov/science/community-levels.html>. Hospital data reported from Flagstaff Medical Center and Tuba City Regional Health Care Corporation.

For Healthcare Facilities: COVID-19 Community Levels do not apply in healthcare settings, such as hospitals and nursing homes. Instead, healthcare settings should continue to use community transmission rates and follow CDC's infection prevention and control recommendations for healthcare workers.

Current Year Cases (January 1, 2022 – June 18, 2022):

16,598 Positive Cases	103,731 Total Tests	26,325 People Tested	24.9% Positivity Yield
------------------------------------	----------------------------------	-----------------------------------	-------------------------------------

Weekly Case Counts Among Coconino County Residents:

*Cases reported from 1/1/22-6/18/22

COVID-19 Situation Summary*

Please visit Vaccine Administration at azdhs.gov for additional Coconino County vaccine data.

COVID-19 Vaccinations Among Coconino County Residents:

Total Vaccinations by Age

Up-To-Date by Race**

Up-To-Date by Sex

**The following races account for less than 1% of total Up-To-Date: Asian or Pacific Islander (628) and Black or African American (249).

Total Fully Vaccinated: 80,006
(59.3% of eligible population)

52.7% of fully vaccinated individuals have received a booster/additional dose

Weekly Vaccine Counts Among Coconino County Residents:

*Vaccinations reported from 12/01/20-6/18/22

Location:

Location	Positive Cases	Case Incidence per 100,000	Positivity Yield	% of Population Up-to-Date on Vaccination [†]
Flagstaff	11,219	11,701	25.5%	45.7%
Page	798	10,568	27.9%	44.0%
Tribal Communities	3,725	14,754	29.3%	52.6%
Williams	291	4,808	25.4%	36.5%
Grand Canyon	146	6,304	27.8%	39.2%
Other Areas	417	7,399	22.9%	41.9%

*Cases reported from 1/1/22-6/18/22. [†]Population estimates include residents aged 5 and older. Vaccination data of Sedona residents have been excluded from Community calculations due to limitations in identifying residents of Coconino and Yavapai Counties. The removal of this data has resulted in the decrease of fully vaccinated individuals reported.

Key Take Away

- The highest **case incidence** for week 24 was observed in Page with an incidence of 344.3 per 100,000.
- The **lowest cumulative** percentage of the population **up-to-date** was observed in **Williams**.

COVID-19 Cases by Geographic Area

*Cases reported from 1/1/22-6/18/22

Age:

Age	Positive Cases	Case Incidence per 100,000	Positivity Yield	% of Population Up-to-Date on Vaccination [†]
0-4 years	634	8,168	21.0%	N/A
5-17 years	2,625	11,803	23.1%	22.6%
18-24 years	3,732	12,632	20.0%	29.4%
25-44 years	5,214	14,977	20.4%	38.9%
45-64 years	3,191	10,200	17.5%	55.9%
65+ years	1,201	7,072	14.3%	70.9%

*Cases reported from 1/1/22-6/18/22. [†]Population estimates include residents aged 5 and older. Vaccination data of Sedona residents have been excluded from Age calculations due to limitations in identifying residents of Coconino and Yavapai Counties. The removal of this data has resulted in the decrease of fully vaccinated individuals reported.

The median age of Coconino County COVID-19 cases is 29 years old

Key Take Away

- The highest **case incidence** for week 24 was observed among residents aged 25-44 with an incidence of 319 per 100,000.
- The highest **positivity yield** for week 24 was observed among residents aged 18-24 with a positivity yield of 25.5%.
- The **highest** cumulative percentage of the population **up-to-date** was observed among residents aged 65+.

Age of Positive Cases by Week

*Cases reported from 1/1/22-6/18/22

Race/Ethnicity:

Race/ Ethnicity	Positive Cases	Case Incidence per 100,000	% of Population Up-to-Date on Vaccination [‡]
Native American	5,485	14,283	49.5%
White	6,166	7,679	57.3%
Hispanic	2,244	10,788	33.5%
Black or African American	254	10,083	40.2%
Asian/ Pacific Island	292	8,830	47.7%
Other/ Unknown	2,157	N/A	N/A

*Cases reported from 1/1/22-6/18/22. [‡]Population estimates include residents aged 5 and older. Vaccination data of Sedona residents have been excluded from Race/Ethnicity calculations due to limitations in identifying residents of Coconino and Yavapai Counties. The removal of this data has resulted in the decrease of fully vaccinated individuals reported.

Key Take Away

- The **lowest cumulative percentage** of the population up-to-date was observed in **Hispanic** residents. The **highest cumulative percentage** of the population up-to-date was observed among **White** residents.

Sex:

Sex	Positive Cases	Case Incidence per 100,000	Positivity Yield	% of Population Up-to-Date on Vaccination [‡]
Female	9,019	12,504	24.5%	48.7%
Male	7,510	10,710	28.1%	43.9%

*Cases reported from 1/1/22-6/18/22. [‡]Population Estimates include residents aged 5 and older

Key Take Away

- Although females have a slightly higher incidence of COVID-19 compared to males, females had 40% more tests than male residents in 2022.
- Male residents have higher testing positivity yields.

COVID-19 TESTING BY WEEK:

*Percent positivity was calculated using only ELR data due to insufficient reporting.

**Data was changed to display total tests per week rather than number of people tested per week.

COVID-19 Diagnostic Testing in 2022:

People Tested: A total of 26,325 Coconino County residents have been tested.

Tests Conducted: A total of 103,731 tests have been conducted among Coconino County residents.

Investigations: The investigations team interviews Coconino County Residents that test positive for COVID-19. **Investigations completed 1,574 in 2022**

Hospitalizations in 2022

(not all hospitals are currently reporting hospitalization data to Coconino County):

Percentage of Cases
2.3%

Hospitalized
385

Hospitalizations Per 100,000
270

In 2022, 11% of hospitalized residents were in the ICU and 3% were intubated.

Sex

COVID-19 Variants in 2022:

Total Variants Being Monitored** and Variants of Concern***

**Variants Being Monitored include variants for which there are data indicating a potential or clear impact on approved or authorized medical countermeasures or that has been associated with more severe disease or increased transmission but are no longer detected or are circulating at very low levels in the U.S, and as such, do not pose a significant and imminent risk to public health in the U.S.

*** Variants of Concern include variants for which there is evidence of an increase in transmissibility, more severe disease (e.g., increased hospitalizations or deaths), significant reduction in neutralization by antibodies generated during previous infection or vaccination, reduced effectiveness of treatments or vaccines, or diagnostic detection failures.

For more information about SARS-CoV-2 variants, please visit the CDC webpage:

[SARS-CoV-2 Variant Classifications and Definitions \(cdc.gov\)](https://www.cdc.gov/sars-cov-2/variant-classifications-and-definitions/)

For more information regarding variant testing in Arizona, please visit the TGen website:

[Arizona COVIDseq Tracker \(tgen.org\)](https://www.tgen.org/az-covidseq-tracker/)

3,437 positive SARS-CoV-2 samples from Coconino County residents have been sequenced in 2022 by partnering laboratories to identify circulating variants.
