## Notice of Flood Control District Public Outreach Meeting

FLAGSTAFF, Ariz. — On Thursday June 23, 2022, at 6:30 p.m., the Coconino County Flood Control District will hold a virtual meeting to present important information to the communities of Timberline, Wupatki Trails, Fernwood, and Doney Park regarding flood threat, risk, and mitigation efforts as a result of the Pipeline, Tunnel, and Schultz Fires.

This outreach meeting will be held via webinar using Zoom video conferencing software, members of the community are encouraged to participate via the following url: <https://us06web.zoom.us/j/87072153234> or toll-free via telephone: (833) 548 0282, Webinar ID: 870 7215 3234.

The meeting can also be viewed on the County YouTube site: <https://www.youtube.com/user/coconinocnty> The meeting will also be recorded and available for later viewing at this site.

Given the large area impacted by potential flooding from these wildfires and the significant level of information that must be shared, there will not be a question & answer period. Residents & property owners of the above neighborhoods who have questions can reach out to the District with questions at: [pipelinefirefloodarea@coconino.az.gov](mailto:pipelinefirefloodarea@coconino.az.gov)

Most future communications, including identification of those properties at risk for flooding based upon the Flood Risk Modeling will take place via email, residents & property owners are encouraged to send a message to the above address and provide contact information including a cell phone and email address. Residents & property owners should also regularly visit <https://www.coconino.az.gov/2926/Pipeline-Fire-Flood-Area> for important updates.

The recent wildfire activity had no additional impacts to the Museum Watershed. A future meeting will review potential flood threat and mitigation efforts for the West side of Flagstaff.

The Coconino County Flood Control District is charged with reducing the risk of flood loss, minimizing the impact of floods on human safety, health and welfare and restoring and preserving the natural and beneficial values served by floodplains. More information can be found online:
