

COCONINO COUNTY ARIZONA

COMMUNITY DEVELOPMENT DEPARTMENT

Jay Christelman, Director

ENVIRONMENTAL QUALITY – RESOURCE LIST

This list is provided as a courtesy to the general public. It is not an endorsement and provides no warranty or assurance of quality by Coconino County for the services or products that may be provided. Other qualified companies not listed below may exist. It is the property owner's sole responsibility to select who will be providing services regarding their wastewater system.

Design

Notes:

1. Providers may only be qualified and willing to provide services for some but not all the permittable wastewater systems.
2. A designer is not required to be an engineer or a sanitarian, however knowledge and experience is needed.
3. An installer is available to the wastewater contractor to support the installation of equipment.
4. Construction services should be provided by a registered contractor.
5. The transfer Inspection (Real Estate sale) needs to be done by someone with ADEQ specified qualifications.

A contractor's license status can be checked at: <http://www.azroc.gov/>.

A sanitarian's license status can be checked at: <https://azdhs.gov/preparedness/epidemiology-disease-control/food-safety-environmental-services/sanitarians-council/index.php>

An engineer's registration status can be checked at: <http://www.btr.state.az.us/>.

A National Association of Wastewater Technicians (NAWT) certification can be checked at: <http://www.nawt.org/membership.html>.
